

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Nippon Growth (UCITS) Fund (the "Fund")

A sub-fund of E.I. Sturdza Funds PLC ("the UCITS") managed by Eric Sturdza Management Company S.A.

A EUR Share Class, ISIN: IE00B991XL80.

Objectives and investment policy

The investment objective of the Fund is to achieve long-term capital growth through active sector allocation and stock selection resulting from changes in economic conditions in a range of Japanese equities.

The Fund's investments will be primarily listed on a Recognised Stock Exchange and the Fund will target underlying investments that can easily be bought or sold in the market with few liquidity constraints.

The Fund has the flexibility to invest in cash or money market instruments including short term government bonds issued by the Japanese Government and denominated in JPY, but these assets do not make up a large part of the Fund's investments.

Pursuant to the EU's Sustainable Finance Disclosure Regulation (EU) 2019/2088 ('SFDR'), this Fund is classified as an Article 8 fund that promotes environmental or social characteristics. The Fund will have an averaged ESG score higher than the averaged ESG score of its initial investment universe. For more information on this Fund's investment approach with respect to sustainability and non-financial criteria, please refer to Annex I of the Fund's prospectus supplement or www.ericsturdza.com.

The Fund may also use financial derivatives such as futures and

options both to hedge the value of the assets within the investment portfolio and also to gain additional investment exposure where necessary. It is possible that a proportion of the Fund's assets may therefore be invested in financial derivative instruments, which may enhance or detract from the Fund's performance.

Shares in the class are hedged to the Fund's base currency.

The Fund is actively managed, with reference to the TOPIX TR JPY (the "Index") for performance monitoring and calculation of performance fees (where applicable). The Investment Adviser is not subject to constraints in terms of deviation from the benchmark composition and may use its discretion to invest in securities/sectors which are not included in the Index. The degree of freedom from the Index may potentially be significant.

You can buy and sell your shares in the Fund on a daily basis.

The A EUR shares are accumulating, as such income from the Fund's investments will be included in the value of the shares rather than being paid as a dividend.

This Fund is deemed appropriate for investors who plan to invest for the medium to long term.

Risk and reward profile

The risk indicator is based on historical data and may not be a reliable indicator of the future risk profile of the Fund, is not guaranteed and may change over time. The lowest category does not mean risk free.

The risk indicator is set as 6, which reflects the historic price behaviour of the Fund (proxy). Factors affecting the risk profile:

Investments in equity securities are subject to fluctuations in value dependent on market conditions which will directly affect the value of investments held by the Fund.

The Fund invests with a single country focus which will increase the risk of investing compared to a fund that invests in a diversified range of countries.

The Fund invests in a concentrated portfolio of investments that may potentially focus on one or more sectors or industries. The range of investments may increase the risk profile of the Fund compared to a more diversified portfolio across sectors and industries.

Additional risks of investing in this Fund include;

Custody and Settlement Risk: the risk that the transactions entered into by the Fund are not settled or registered as appropriate.

Financial Derivatives Risk: the risk that financial derivatives may increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of

the Net Asset Value of the Fund.

Liquidity Risk: the risk that the assets of the Fund may have low levels of liquidity in some circumstances.

Operational Risk: the risks associated with correctly reflecting the value and safekeeping of the assets of the Fund.

Taxation Risks: the risk of changes in taxation regimes, including legal and regulatory changes.

Counterparty Risk: the risk associated with holding assets with an unrelated third party who may fail to deliver the assets or whose financial standing may affect the value of the assets.

The Prospectus and Supplement give you more details about all risks associated with the Fund – please refer to the "Practical Information" section for details of how to obtain a copy.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.75%
-----------------	-------

Charges taken from the fund under certain specific conditions

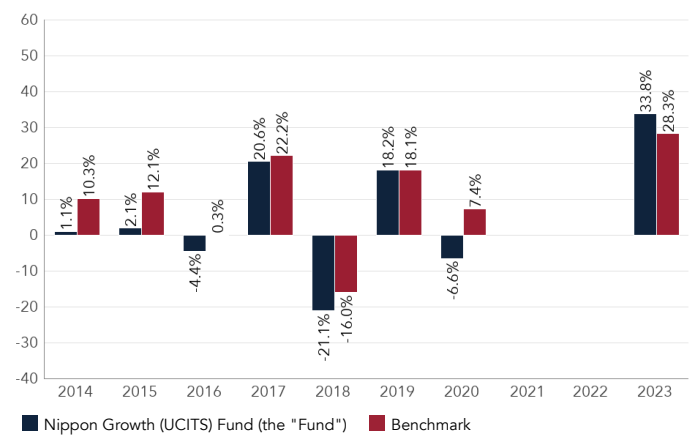

Performance fee

15.00% of relative outperformance, if any, of the Net Asset Value per Share (before deducting the amount of any accrued liability for a performance fee) over the TOPIX TR JPY.

The ongoing charge is based on estimated fees and expenses that this Share Class will pay in one year. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the relevant section in the Supplement, which is available at www.ericsturdza.com.

Past performance

Past performance is not a guide to future performance. The value of your investment may go down as well as up and you may not get back the amount you originally invested.

The chart shows the Share Class's annual performance in EUR terms for each complete calendar year since launch. It is expressed as the percentage change of the Fund's net asset value at each year end.

The share class launched on 14 May 2013.

Performance is shown after deduction of ongoing charges and performance fees (where applicable). Any entry or exit fees are excluded from the calculation.
